

PO Box 123 Crapaud, PE C0A 1J0 | (902) 940-9359 | sswa.@sswa.ca

Hello!

My name is Juliana and I am the manager for the South Shore Watershed Association. I would like to warmly welcome you to our field season. SSWA relies whole-heartedly on community members to help maintain the well-being of our natural areas on the South Shore.

Each year, we...

- Clean hundreds of km's in shoreline garbage
- Connect streams and rivers through in-stream debris removal
- Plant thousands of native plants
- Host events to connect community and nature
- Connect landowners to government funding

We kindly ask for your consideration in signing the attached form. Signing this form gives permission for SSWA to access the stream and buffer zone on your property for environmental assessment and monitoring projects - at no cost to you - it is what we do! This permission may be cancelled at any time by telephone, email, or in-person.

Many thanks in your help keeping the South Shore a sustainable place for people and wildlife to call home.

Kind Regards,

Juliana Granzoti, Manager,

Juliana Granzoti

Permission Form

Please fill out and return, feel free to call or email us with any questions!
