www.sswa.ca / sswa@sswa.ca

Hello dear member of the community,

The South Shore Watershed Association (SSWA) is a registered charity group established in 2011 on the South Shore of PEI. Our area covers the DeSable watershed, Westmoreland watershed, Tryon watershed, Augustine Cove/Cape Traverse watershed, and the Seven Mile Bay watershed. SSWA has the mandate to protect and enhance fish passage from estuary to headwaters; increase the diversity of native trees and shrubs; and, connect the community with local nature by hosting events and sharing information about the local wildlife.

This field season, we are focusing on the Westmoreland River watershed, which runs along Inkerman Road and Route 13 down to the Victoria-by-the-Sea estuary. It is home to diverse communities of wildlife including some of our favorites: brook trout, spotted salamanders, red foxes and kestrels.

You might have heard about our projects in the area, such as the Daryl Guignon Memorial Park featuring an outdoor classroom and a pollinator garden in Crapaud, the enhancement of the Westmoreland River Nature Park located on ROUTE 13, and the Swim for the South Shore fundraiser, a 1km swim in Victoria-by-the-Sea.

We kindly ask for your permission to allow the SSWA team to access the stream on your property for environmental enhancement restoration techniques and monitoring of wildlife projects. This permission has no cost to you and is essential for us to complete our work - our vision is to protect and improve natural habitats for both wildlife and human use! This permission can be renewed or cancelled anytime by telephone at 902-213-2016, by email at sswa@sswa.ca, or via mail at PO BOX 123 Crapaud, C0A1J0 PE.

We appreciate your support! Please, feel free to reach out for any inquiries or questions about our work!

Cheers,

South Shore Watershed Association Team

Matt Meenink (Manager/Coordinator)
